Tools: Github, VS Code, Vercel, Netlify

Projects

1. Unity Aid - [Live Link](#) [Frontend](#) [Backend](#)

Overview: Developed a comprehensive **Disaster Relief Donation Platform** to facilitate post-disaster relief efforts by providing a centralized hub for donations, donor testimonials, and relevant information.

Features:

- Home page with donation posts, donor testimonials, and a gallery of humanitarian efforts.
- Detailed donation pages with images, descriptions, and a donation button.
- User authentication with login and registration pages.
- User dashboard for managing donations and viewing statistics.
- Dynamic theme switching, donor leaderboards, and a community gratitude wall.

Technologies:

- React, Redux, RTK Query, React Router DOM, Redux Persist, Framer Motion, Node.js, Express.js and MongoDB.

2. Gadget Grove - [Live Link](#) [Frontend](#) [Backend](#)

Overview: Developed an advanced **Electronic Gadgets Shop platform** to provide a dynamic marketplace for electronic devices, enhancing user engagement and offering an immersive shopping experience for electronic gadgets enthusiasts.

Features:

- Home page with featured gadgets and intuitive navigation.
- Product listings with advanced filtering.
- Flash sale section with countdown timers.
- Detailed product pages with images and descriptions.
- Secure user authentication and session persistence.
- Admin and user dashboards for managing products and orders.
- Cart functionality with persistent state and checkout process.

Technologies:

- Next.js with TypeScript, Redux, Redux Persist, Framer Motion, NextUI, Node.js, Express.js, and MongoDB.

3. Social Sync - [Live Link](#) [Frontend](#) [Backend](#)

Overview: Developed a Contacts Management Application to efficiently handle and manage contact details, ensuring an intuitive and user-friendly experience.

Features:

- Functionality to mark contacts as favorites.
- Update contact details in a modal and delete contacts from the list.

Technologies:

- React.js, Redux, Redux Toolkit (RTK), Tailwind CSS, Node.js, Express.js, MongoDB, Mongoose and Zod.
